

Fig. 1

Fig. 2 is a side view of the device in the open position, showing the upper panel 10 and the lower panel 17. The upper panel 10 is hinged to the frame 2 and is shown in a tilted position. The lower panel 17 is hinged to the frame 2 and is shown in a horizontal position. The device includes a series of rollers 14 and 16 on the lower panel 17, which are supported by a frame 2. The rollers 14 and 16 are shown in a cross-section view. The frame 2 is supported by legs 7 and 8. The device is shown in a side view, with a dashed line indicating the hinge mechanism. The labels 10, 17, 6, 19, 4, 14, 16, 9, 15, 8, 18, 2, and 7 are used to identify the various components of the device.
